FOUR CHOICES OF QUALITY

Our selection of HIPP, KLINI, ARMO, and SAYCO instruments offer unparalleled flexibility, quality and value. Our multi-tiered instrument quality selection recognises and meets a variety of clinical needs and budgets.

ANTON HIPP
Instruments & Implants

THEATRE (GERMANY)

Our state of the art range of "Theatre Quality" Instruments. All Hipp instruments are manufactured to exacting standards at the fully accredited Anton Hipp GMBH facility located in southern Germany. Crafted from the finest German stainless steel forgings for the utmost reliability, durability, consistency and precision. Incorporating the very latest technological innovations, most of these instruments are available with Tungsten Carbide inserts for added precision and lifespan.

KLINI™
instruments by anton hipp
GERMANY

GERMANY

Our new range of German theatre quality medical instruments. KLINI instruments are manufactured for us under licence by Anton Hipp. The HIPP name is synonymous with quality that has been proven time and time again with over 40 years experience in the medical instrument industry. Our new KLINI range offers German quality at a competitive price.

ARMO
surgical instruments

SUPERIOR

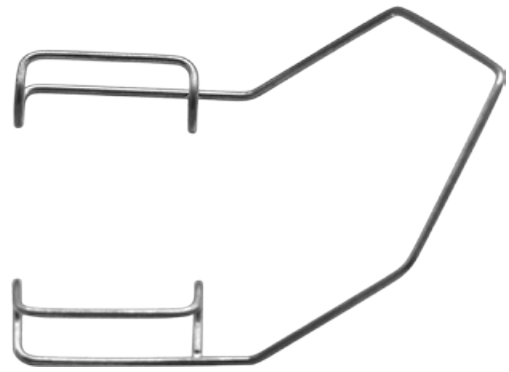
The workhorse of our three quality ranges. This accredited range was borne out of the need for high quality dependable instrumentation in today's cost-sensitive environment. ARMO Instruments are crafted from the finest quality forgings and made to our specification in state of the art fully accredited manufacturing facilities in Pakistan. Most ARMO instruments are available in a smooth satin low reflective finish.

Sayco
first aid instruments

WARD

Our standard "Ward Quality" line. Economically priced and highly popular. This range is intended for use in applications where surgical precision is not the primary selection criterion.

Eye Specula



BARRAQUER WIRE

Barraquer Wire Eye Specula is an ophthalmic instrument used to retract and hold the eyelid open during surgery.

	HIPP	KLINI	ARMO
ADULT			
15mm blades	100 4014
